Access to receiver required. Please make sure you got access to your receiver/opener before purchase.

Disclaimer: Your remote control must be the same as the picture and your model must be in the list, we will not be responsible for wrong purchase

How is it programmed?

When a button is pressed, the control-transmits the radio signal and tums on the LED that indicates, in addition to the type of code used HCS rolling code-red LED(factory setting)
DIP SWITCH HT12-green LED;

D.A.R.T.DEA Advanced Rolling Transmission-alternating red/green LED

Change transmission code
Hold down keys T1 and T2. When the radio control LEDS tum on(10s),wait until they flash to indicate the type of code set:.
1 flash per second=HCS rolling code
2 flashes per second =DIP SWITCH HT12
3 flashes per second= D.A.R.T.
Hold down Ti and use T2 . to change the type of flash. Once the new code has been selected, press and hold down key T2 until the LEDs tum off (5s)

Programming with receiver
(Refer to the receiver manual for information
on the storage procedure.)
1. Open the gate opener and find the programming button
briefly, an LED will light up on the receiver P.C.B., you now
have 10 seconds to perform the next step
